The screenshot shows an IDE with a Java project. The Explorer panel on the left shows the project structure, including a 'test' directory with 'LocationInfoTest.java'. The Editor panel shows the code for 'LocationInfoTest.java', which includes a test method 'testInvalidReceiverEmail'. The Terminal panel on the right shows the output of the test run, including the test results and a 'BUILD FAILURE' message.

```
src > test > java > com > example > J LocationInfoTest.java >
